MUSCULOSKELETAL

ImageAnalysis delivers comprehensive services and innovative software algorithms for advanced medical imaging analytics.

Our proprietary platform Dynamika provides automation, centralization and standardization for imaging-based musculoskeletal clinical studies:

- ▶ Rheumatoid Arthritis
- ▶ Osteoarthritis
- ▶ Psoriatic Arthritis

Expertise:

- ▶ **Automated and standardized** image scoring
- ▶ **Objective quantification** of treatment effect
- ▶ **Reproducible and sensitive** assessment of early signs of inflammation

Service:

- ▶ Centralized automated image reading with Dynamika
- ▶ Research in advanced imaging biomarkers
- ▶ Bespoke development of algorithms to support understanding of advanced MSK imaging
